Education

University of California, Berkeley (UCB), California, United States

Ph.D. in Economics (2026-).

Pontificia Universidad Católica del Perú (PUCP), Lima, Peru

B.Sc. and Licentiate in Mathematics (2020–2025), graduated with honors.
Year completed abroad at EPFL, studying physics (2019).

Lycée Franco-Péruvien, Lima, Peru

Baccalauréat Scientifique (2017–2018), 19.91/20.

Experience

Research Assistant (2021-2025)

With Professor Juan Carlos Carbajal. 2024-2025. UNSW Sydney, Au.
With Professor Jorge Richard Chávez. 2021-2025. PUCP, Lima, Pe.
With Professor Juan León Jara. 2022-2023. GRADE, Lima, Pe.

Teaching Assistant at PUCP (2022-2026)

Operation Research. With Professor Jorge Richard Chávez.
Guest professor: Federico Echenique (UC Berkeley).
Functional Analysis. With Professor Percy Braulio Fernández.
Applied Differential Equations. With Professor Marcelo Flamarion.
Mathematics for Economics and Finance 3. With Professor Jorge Richard Chávez.
Mathematics for Economists 4. With Professor Jorge Richard Chávez.
Microeconomics 1. With Professor José David Gallardo Kú.
Microeconomics 2. With Professor Pavel Coronado Castellanos.
Financial Microeconomics. With Professor José David Gallardo Kú.

Papers

A Daily Index of Economic and Political Uncertainty for Peru from X Discourse (2026). With Manuel Loaiza and Gabriel Rodriguez.

Congestion and Penalization in Optimal Transport (2025). With Manuel Loaiza and Jorge Chávez. *R&R at Decisions in Economics and Finance (Springer).* arXiv:2410.07363

Interiority in Optimal Transport with Congestion and Penalized Marginals (2026). With Haopeng Zhou.

Heterogenous Quadratic Regularization in Optimal Transport (2025). With Manuel Loaiza and Jorge Chávez. *Presented at XXXVIII Colloquium of the Peruvian Mathematical Society.*

Exact Regularization Thresholds for Integer Quadratic Transport (2026). *Corrects and extends the paper above.*

Working papers

Innovation and Isolation: Status Rents and Endogenous Networks (2026).

Information and voting: Evidence from Peru's 2026 presidential election (2026). arXiv:2606.01687 With Nicolás Velarde and Cristina Gutarra. Accepted for presentation at LACEA-LAMES 2026 in Lima, Peru.

The Market and the Jungle: Dual Economies in Emerging Countries (2026). With Juan Carlos Carbajal and César Martinelli.

Field Experiments on Seasonal Products and Markdown Pricing (2026). With Carlos Noton and Marcelo Olivares.

Work in progress

Dynamic Programming and Production Networks: Continuous Families of Contractions with Discontinuous Fixed Points (2026). With Gabriel Orellano.

Books

Optimal Transport Theory and its Applications in Economics and Finance (2026). With Carlos Cosentino and Gabriel Orellano. *Working book.*

Dynamical Systems and Optimal Control for Economists (2026). With Jorge Chávez. *Recommended for publication at Springer Verlag.*

Linear Algebra and Optimization for Economists (2025). With Jorge Chávez. Foreword from Professor César Martinelli. Published by the Fondo Editorial PUCP.

Fundamentals of Econometric Theory (2025). With Juan León Jara-Almonte. Published at Decon PUCP.

Awards and distinctions

Ranked 1st in the Mathematics major and within the top 1.15% of my cohort of the Faculty of Sciences and Engineering, PUCP, Lima, Pe, 2025.

Excellence Scholarship. PUCP, Lima, Pe, 2024.

Winner of the contest "Initiation to Scientific Research." PUCP, Lima, Pe, 2020 and 2021.

Admission to the Bachelor's Program at École Polytechnique (l'X). Paris, Fr, 2019.

Mention Très Bien at the French Baccalauréat (BAC S). Lycée Franco-Péruvien, Lima, Pe, 2018.

Languages

Spanish (native), French (advanced), English (proficient), Portuguese (basic).

Research interests

VCG mechanisms in general equilibrium. Optimal Transport-based Matching Theory and Mechanism Design.

Academic presentations

XXXVIII Colloquium of the Peruvian Mathematical Society. August. 2025.
XIV Economics Students' Assembly Colloquium, PUCP. June 2026.
